

# SCHOOL MANAGEMENT SYSTEM

## Key Business Benefits

- System architecture and integration allows all school data to reside in one Database.
- Software supports school administration needs without requiring schools to purchase additional costly modules
- Attendance can produce accurate attendance reports without collecting slips of paper from classrooms
- Report cards and transcripts are automatically generated from grade books, eliminating manual keying and review by teachers
- Email capabilities and Parents Web Portal provide schools significant expense savings for postage, printing and reproduction
- Never have to manually calculate term averages
- Can record grades in system from anywhere they have Internet access
- Attendance feature allows teachers to take attendance from the classroom; making information immediately to the office
- Emailing feature enables teachers to email messages or progress reports from grade book without looking up email addresses
- Document course objectives and lesson plans
- Enhanced communication with parents
- Stronger parental involvement
- Improved student participation
- Reduced surprises at report card time
- System security provides password protection
